

**GSCCC Stakeholder Meeting Highlights**  
**October 4, 2013**

About 35 attended the meeting, held at DES Offices. The topic was propane conversions and green products available.

Mike Dunican and Cece Cushing from North American Equipment Upfitters, Inc. in Hooksett presented on installing propane fuel systems in vehicles outlining the various manufacturers and types of propane upfitting (Icomm, PRINS, dedicated and bi-fuel). North American Equipment Upfitters installs booms and service equipment on trucks and recently became CNG and propane upfitters.

Glenn Johnson of AutoBeGreen presented on his Exeter company's products. AutoBeGreen provides fleets the opportunity to purchase biodegradable oils and products from recycled sources. Glenn brought many of his products with him to view and discuss.

Dolores Rebolledo, GSCCC coordinator provided a brief update on the coalition. A few announcements were made. The meeting adjourned at 11:20 with attendees walking to the front parking lot to view an array of propane vehicles brought by GSCCC stakeholders.
